# Roeland Baan joins Haldor Topsoe as new CEO

By [Svend Ravn](#)

*Today is the first workday for the company's new top manager.*

“This is a special day for me. Topsoe is an exceptional company that has made a huge difference for the refining and chemical industries for decades. I have no doubt that Topsoe has the potential to expand this strong market position and lead the way into a more sustainable and energy-efficient future. I have been looking forward to begin this journey

---

Baan.

Roeland Baan was announced as new CEO on February 7, 2020. At this occasion, Jeppe Christiansen, Chairman of the Board of Directors of Haldor Topsoe A/S, commented:

**HALDOR TOPSOE** 

building cohesive organizations. I am convinced he will contribute to the continued strong performance of Haldor Topsoe. Topsoe is a profitable company with a solid core business. With Roeland's direction, we will continue to focus on being global leader in the markets in which we operate."

Roeland Baan joins Topsoe from a position as CEO of Outokumpu, a global stainless steel company listed on the Finnish stock exchange. To see more about Roeland Baan, [please visit our homepage](#).

Congratulations to Mr. Ronald Baan for being appointed to the leadership post as CEO of Haldor Topsoe. GPIC as a leading petrochemical company in the Arabian Gulf region are proud to be working with Haldor Topsoe for about 4 decades and we regard our selves as being the most loyal customer of this great company. Since 1983 GPIC has been using Haldor Topsoe catalysts in all of its Ammonia, Urea and methanol process plants. For four decades GPIC has used Topsoe catalysts on a continuous and sustainable basis.

We wish Mr. Baan success in his new role as CEO of this great company.

Congratulations to Roeland Baan from all at Novello GTL. You are leading a great company. We wish you good success.

**Gregory Dolan** 17/6/2563 23:53:32

Very happy to add congratulations from the Methanol Institute. Haldor Topsoe has been a leader in methanol production technology from conventional and renewable feedstocks. We look forward to working with Mr. Baan in supporting methanol's role in a low carbon economy. Cheers!
