Second Quarter 2015 Teleconference Supplemental Data

Cautionary Statement

Forward-Looking Information This communication contains forward looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements regarding our future financial and business performance and prospects, including forecasted 2015 third quarter and full year business and financial results, the impact of oil prices, sales growth, innovation, cost savings, synergies, interest expense, income taxes, shares outstanding and unfavorable foreign currency and pension expense impact. These statements are based on the current expectations of management of the Company. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. These risks and uncertainties are set forth under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, our most recent Form 10-Q and other public filings with the Securities and Exchange Commission (the “SEC”) and include the vitality of the markets we serve, including the markets served by our Global Energy segment; the impact of worldwide economic factors such as the worldwide economy, credit markets, interest rates and foreign currency risk; exposure to economic, political and legal risks related to our international operations; the costs and effects of complying with laws and regulations relating to our operations; the occurrence of litigation or claims; and other uncertainties or risks reported from time to time in our reports to the SEC. In light of these risks, uncertainties and factors, the forward-looking events discussed in this communication may not occur. We caution that undue reliance should not be placed on forward-looking statements, which speak only as of the date made. Ecolab does not undertake, and expressly disclaims, any duty to update any forward-looking statement except as required by law.

Non-GAAP Financial Information This communication includes Company information that does not conform to generally accepted accounting principles (GAAP). Management believes that a presentation of this information is meaningful to investors because it provides insight with respect to ongoing operating results of the Company and allows investors to better evaluate the financial results of the Company. These measures should not be viewed as an alternative to GAAP measures of performance. Furthermore, these measures may not be consistent with similar measures provided by other companies. Reconciliations of certain non-GAAP measures to GAAP results are available in our news release furnished as an exhibit to our current report on Form 8-K dated July 28, 2015 and other of our SEC filings.

Please see Ecolab’s news release dated July 28, 2015 for additional information, including with respect to the use of certain non-GAAP financial measures, such as fixed currency sales, adjusted operating income, adjusted fixed currency operating income, adjusted net income and adjusted EPS.

(\$ millions)	2015	% sales	2014	% sales	% change	Comments
Gross Profit	\$1,582.6	46.7%	\$1,658.8	46.5%	-5%	Adjusted for special charges, the 2015 gross margin was 47.0% and 2014 was 46.5%. The 50 bps margin improvement in 2015 was the result of delivered product cost savings and synergies.
SG&A	1,079.2	31.8%	1,152.7	32.3%	-6%	The 50 bps decrease in the 2015 ratio was primarily driven by synergies, cost savings and lower variable compensation costs which more than offset higher pension expense.
Operating Income (fixed FX)						
Global Industrial	163.9	13.7%	150.8	13.1%	9%	The 60 bps improvement was due to pricing gains and synergies, which more than offset investments in the business and other costs.
Global Institutional	234.7	21.3%	194.0	18.7%	21%	The margin rose 260 bps reflecting the net impact of sales volume increases pricing gains and cost efficiency actions, which more than offset investments in the business and other costs.
Global Energy	134.6	14.0%	152.4	15.0%	-12%	The margin declined 100 bp as the net impact of sales volume reductions and lower pricing more than offset delivered product cost savings and synergies.
Other	<u>33.0</u>	<u>16.9%</u>	<u>29.7</u>	<u>16.0%</u>	11%	The margin rose 90 bps due primarily to sales volume and pricing.
