

CB&I Announces CATOFIN Technology Award for Hengli

Company Release - 12/22/2015 08:00

THE WOODLANDS, Texas, Dec. 22, 2015 /PRNewswire/ -- CB&I (NYSE: CBI) today announced it has been awarded a contract by Hengli Petrochemical (Dalian) Refinery Co. Ltd. The project scope includes the license and engineering design of a grassroots propane and butane dehydrogenation unit to be built in Dalian, Liaoning Province, China.

The unit will use CB&I's CATOFIN® catalytic dehydrogenation technology and Clariant's tailor-made CATOFIN catalyst to process feedstock containing 300,000 metric tons per year of propane and 600,000 metric tons per year of isobutane for the joint production of propylene and isobutylene. The unit is the largest single-train dehydrogenation plant in the world.

"CB&I's CATOFIN technology provides our customers with proven reliability and the flexibility to co-process multiple feed compositions at world scale capacities," said Daniel McCarthy, President of CB&I's Technology operating group. "In addition to this award, CLG, CB&I's joint venture with Chevron, was awarded the ISODEWAXING® catalytic isomerization and ISOFINISHING® hydrofinishing processes for this project. This multi-technology award underscores CB&I's broad portfolio of technology solutions."
