## Activated Alloy Catalyst [KALCAT™]

- ➔ **Pioneers in Raney type Nickel catalysts India.**
- ➔ **Largest producer of Activated Alloy Catalyst in India.**
- ➔ **Various grades are designed based on applications.**
- ➔ **Customized solutions are provided.**
- ➔ **Fully Equipped Research and Development centre for study of various hydrogenation reactions.**

When Monarch took over Kallin in 2002, it was the pioneer in the field of Activated Alloy Catalysts in India. And our range of Activated Alloy Catalyst KALCAT came into being. Mainly used in the pharma, dye intermediary and aroma industries; it is touted as one of the best available products globally.
