Gas

POLYPIPE HDPE GAS PIPE PRODUCTS

PolyPipe HDPE gas pipe, designed for use in the Industrial and Utility markets, provides a monolithic, corrosion and leak free piping system for transporting gas.

HDPE pipe is an excellent choice due its proven track record of providing longevity and reliability in gas piping systems. With multiple manufacturing locations and a vast distributor network, the end user is assured of receiving superior products combined with maximum service. Dura-Line is addressing this market's needs to provide the best solution, HDPE pipe, to remedy deteriorating infrastructure nationwide.

PolyPipe HDPE gas pipe is designed and ideally suited for use in Oil and Gas Gathering systems. HDPE pipe is used in these applications for transporting oil and gas from wells to field storage tanks and separation equipment. Dura-Line services this market with multiple manufacturing locations and a vast distributor network. Our distributors and their end user partners have come to rely on our ability to quickly supply their immediate and emergency pipe requirements. Dura-Line services this important market to assure our customer's success for providing energy independence for America.

Gas Distribution

A reliable gas distribution system requires uncompromised quality from your pipe supplier and the utmost in safety, durability and integrity in your pipe. Polyethylene gas pipe is the preferred choice for natural gas...

Energy Oil & Gas
