The leaders in innovative automotive interior coatings

PRODUCTS

Enhancing the style and integrity of automotive interiors.

United Paint is exclusively dedicated to the development of innovative coatings for automotive interiors. As the only coatings company with this sole focus, United endeavors to be first-to-market in each product category. By partnering with the industry's leading integrators and substrate manufacturers, our staff of polymer chemists maintains a unique understanding of coating requirements, application variables and part construction methods. The result is great chemistry.

| REFERENCE | #COMPONENTS | TECHNOLOGY | SUBSTRATES | APPLICATION | ATTRIBUTES |
|-----------|-------------|--------------|---------------------------|-------------|--|
| AEMX | Two | Solventborne | Styrenetics and Olefinics | Spray | Primerless Full metallic range Chemical resistance |

| | | | | | |
|------------|-----|--------------|------------------------------|----------------------|--|
| AEMX-LE | Two | Solventborne | ABS, PC, blends, Acrylics | Spray | Laser etchable |
| AESF | Two | Solventborne | ABS, PC, blends, TPO, PP | Spray | Soft Touch Primerless to ABS, PC, blends |
| AWDF | Two | Waterborne | ABS, PC, blends, TPO, PP | Spray | Semi soft touch, Chemical Resistant Low gloss capable |
| AWHP/WPSII | One | Waterborne | ABS, PC, blends | Spray | Low gloss capability Low VOC Chemical resistance |
| AWLF | One | Waterborne | Leather | Spray Roll Coater | Abrasion resistance Cross-linkable Low gloss capability Stitchable |
| AWOF | One | Waterborne | TPO Sheet | Gravure | Flexibility Stain resistance Blocking resistance |
| AWOR | One | Waterborne | TPO, PP | Spray | Direct to substrate High mar resistance Chemical resistance |
| AWRF | One | Waterborne | PVC Sheet | Gravure | Fully formulated clear NMP Free Denim resistance Stitchable |

| | | | | | |
|------|-----------------|------------|--------------------------------|----------|--|
| AWSF | Two | Waterborne | ABS, PC, blends, TPO, PP | Spray | Full range of soft- feel effects Adhesion to styrenetics and olefinics Grain resolution Laser etchable |
| SWVF | One | Waterborne | PVC | Spray | Post Paint, two- tone Flexibility Low gloss capability |
| WPSF | In Mold Coating | Waterborne | Aromatic, Aliphatic PU | Spray IM | Soft feel Fast set-up Fast cycle time Color uniformity |
| WPT | In Mold Coating | Waterborne | RIM Urethane, Urethane Foam | Spray IM | Soft feel Low gloss capability Chemical resistance Fast set-up |

Great Chemistry...in every vehicle and our company.
