Dateline City:

IRVING, Texas

IRVING, Texas--([BUSINESS WIRE](#))--[Fluor Corporation](#) (NYSE: FLR) announced today that it was awarded an engineering, procurement and construction management (EPCM) contract by PETRONAS Refinery and Petrochemical Corporation Sdn. Bhd. for an isononanol plant located in Pengerang, Johor, Malaysia. Fluor will book the undisclosed contract value in the third quarter of 2017.

"This award is a testament to the strong partnership we have with PETRONAS," said [Ken Choudhary](#), president of Fluor's energy and chemicals business for the Asia-Pacific region. "We will use our experience and best practices gained from completing other isononanol facilities on time and on budget to deliver this project with excellence."

The project is part of PETRONAS's Refinery and Petrochemical Integrated Development (RAPID) project and the mammoth \$27 billion Pengerang Integrated Complex development. Fluor, in a consortium with Technip, is serving as the program management consultant for the RAPID project, as well as the EPCM contractor for the [utilities, interconnecting and offsites](#) scope.

The facility will produce 250,000 tons per year of isononanol, which is a key chemical building block in plasticizers used in the automotive and building industries. Facility start-up is expected in 2019.
