Wanhua-BorsodChem to set up MDI bulk storage facility at LBC Rotterdam

WANHUA-BORSODCHEM TO SET UP MDI BULK STORAGE FACILITY AT LBC ROTTERDAM

20 June 2017

Wanhua-BorsodChem to set up MDI bulk storage facility at LBC Rotterdam

In response to the growing demand for MDI in the European market and to improve its services and flexibility, Wanhua & BorsodChem announced that they will work together with LBC Rotterdam and build two new tanks for the Wannate MDI products. The bulk storage facility at the LBC Rotterdam facility is ideally located to serve as Wanhua & BorsodChem's regional European distribution hub for European customers for Wannate MDI products imported from China.

The new MDI tanks will be commissioned in July 2017 and will help to ensure a sustainable and stable supply of MDI to the region. We are looking forward to the cooperation with Wanhua & BorsodChem and welcome them with great pleasure at our Rotterdam facility.
