

## PRESS RELEASE

Frankfurt, March 28, 2018

### INEOS STYROLUTION TO BUILD A WORLD-SCALE STYRENE MONOMER PLANT IN THE US GULF COAST

- Best-in-class technology to meet growing global demand
- Cost advantaged feedstock

**INEOS Styrolution, the global leader in styrenics, will commission an engineering study to build a world-scale styrene monomer (SM) plant in the US Gulf Coast.**

The new SM plant will use best-in-class technology and benefit from access to low cost feedstock and energy from shale gas as well as an excellent infrastructure. A specific location is yet to be defined.

Steve Harrington, President Global Styrene Monomer and Asia-Pacific, comments: "The new plant will complement our existing SM production facilities and provide a sustained competitive advantage to enable us to supply the global market."

"This plan supports our 'Triple Shift' growth strategy and maintains our leading position as a global styrenics supplier to our key customers and industries", adds Kevin McQuade, CEO at INEOS Styrolution.

## About INEOS Styrolution

INEOS Styrolution is the leading global styrenics supplier, with a focus on styrene monomer, polystyrene, ABS Standard and styrenic specialties. With world-class production facilities and more than 85 years of experience, INEOS Styrolution helps its customers succeed by offering the best possible solution, designed to give them a competitive edge in their markets. The company provides styrenic applications for many everyday products across a broad range of industries, including automotive, electronics, household, construction, healthcare, toys/sports/leisure, and packaging. In 2017, sales were at 5.3 billion euros. INEOS Styrolution employs approximately 3,300 people and operates 16 production sites in nine countries.
