Trading Terms & Conditions

All goods are supplied to you (The Purchaser) on the following terms and no person in our employment or acting or purporting to act as our agent has any authority to supply or accept orders for goods on any other terms or to vary them in any way whatsoever. Acceptance of goods by the purchaser shall be conclusive proof before any court that these terms apply to that contract for sale of goods.

All equipment will be supplied in accordance with each individual manufacturer's warranty and any claims will be strictly carried out with this warranty.

We will endeavour to advise suitability of chemicals and equipment for each individual customer's needs, but it is the sole responsibility of the customer, prior to ordering, to evaluate its suitability.

Prices are strictly net and payment is due within 30 days of the invoice date.

All prices and delivery charges shall be those ruling at date of dispatch unless otherwise agreed and shall be subject to alteration without notice, although we will give reasonable notice of alterations wherever possible.

Unless otherwise arranged, delivery will be made by the method we consider most suitable and if delays in delivery are due to factors out of our control we shall be allowed reasonable extension time. If consignments are delivered damaged or with part contents missing they must be signed for accordingly and notification sent in writing to us within 5 days of delivery.

Specifications may be changed by the manufacturer without notice to improve products or because of unavailability of original parts or materials, but we will ensure that the products remain suitable in our opinion for the purpose for which they were originally designed.

All goods which are subject of any agreement for sale by us to the purchaser shall be at risk of the purchaser as soon as they are delivered to his premises or otherwise to his order, but all such goods shall remain our sole and absolute property as legal and equitable owner until such time as the purchaser shall have paid to the company the invoice price. Until such time as the property in the goods referred passes to the purchaser, the purchaser acknowledges that he is in possession of such goods solely as bailee for us and that he will store them at his premises separate from other goods and that we may enter upon any part of the purchasers premises with such transport as may be necessary and re-possess the same.

The terms and conditions are governed by English law.

PARTNERSHIP
INNOVATION
APPLICATION

HOLCHEM

Responsible Care

Product stewardship is a product centered approach to environmental protection. Product stewardship recognises that product manufacturers must take on new responsibilities to reduce the environmental footprint of their products.

However, real change cannot always be achieved by producers acting alone: retailers, consumers, and the existing waste management infrastructure need to help to provide the most workable and cost effective solutions. Solutions and roles will vary from one product system to another.

Our environmental management system ISO 14001 ensures we provide cleaning and disinfection solutions that meet the highest standards of performance and environmental sustainability.

- We are committed to providing products with low heavy metal content; for example Mercury in caustic products.
- We are committed to the removal of components that do not contribute to the product performance. For example; we have removed solvents from a large number of product formulations.
- We are committed to minimising our environmental impact and that of our customers:
 - By evaluation of the impact of raw materials and how these contribute in a final product formulation.
 - By optimising customers cleaning methodology to give lowest impact.
 - By the reuse or recycling of packaging material wherever possible.
 - By the supply, wherever possible, of concentrated rather than ready to use products.

Cost comparison of ready to use versus concentrates

Where possible across the Food Service & Hospitality range Holchem supply concentrated products; this has environmental and cost-in-use benefits. As an example, a typical ready to use hard surface cleaner costs approximately £1.19 per 750ml trigger bottle. A refillable 750ml trigger bottle with a made up solution of a hard surface cleaner costs from as little as 8p per bottle. This equates to a 95% in-use cost saving.

Cleaning Is Not Enough

“Documented systems are essential for effective hygiene.”

The food hygiene regulations 2006 introduced legislation on the need for all food businesses to operate a documented food safety management system in line with the principles of HACCP (hazard analysis, critical control point).

An essential element of this system is cleaning documentation. Enshrined within this legislation is the need for all food premises to be maintained in a clean condition and activities related to the maintenance of safe food production to be recorded.

Hygiene

Products, Systems & Support

Products

Holchem Optimum products meet the highest standards of performance, environmental sustainability and cost-in-use with simple to understand names and packaging. Our chemical dilution and application equipment is simple to use and gives accurate and consistent operation and control.

Hygiene & Safety Awareness

The Optimum Wallcharts and various supporting signage give a quick visual guide to equipment and surfaces that need cleaning. Providing all the relevant MSDS's to ensure your business is safe and compliant with today's ever demanding safety standards.

Service Support

Holchem's support team of Technical Sales Consultants and Customer Support Advisors provide consultative advice for all cleaning and hygiene aspects of your business including:

- Best practice
- Product selection
- Preventative maintenance
- Training packages

“If the disinfection part of a cleaning process is to be effective, it is vital that the surface to be disinfected is free of food soil or chemical residues.”

Dishwashing

Machine Dishwash

Dishwasher detergent for cleaning crockery, cutlery, pots and glassware in commercial dishwashers. Suitable for all water hardness. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Destain Dishwash

Chlorinated dishwash detergent that gives excellent removal of protein and tannin deposits. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Utensil Dishwash

Alu-Safe utensil & dishwash detergent for safe, non-corrosive cleaning of aluminium pots, pans & utensils. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Acid Rinse Aid

Acidic rinse additive for use in dishwashers in areas of medium to hard water conditions. Reduces drying time and leaves a spot free finish. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Universal Rinse Aid

Universal rinse additive for glass and dishwashers that reduces drying time, leaving a spot free finish. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Washing Up Liquid

A neutral detergent for the manual washing of utensils, crockery and cutlery in a sink. **Concentrated** product designed to be diluted. Only 2-4 shots from dispenser are needed, depending on sink size and soil level.

Premium Washing Up Liquid

Premium neutral detergent for the manual washing of utensils, crockery and cutlery in a sink. **Concentrated** product designed to be diluted. Only 1-2 shots from dispenser are needed, depending on sink size and soil level.

Bacti Blue

Concentrated detergent disinfectant for manual washing of utensils, crockery and cutlery in a sink. The product is designed to be diluted. Only 2-4 shots are needed from dispenser, depending on sink size and soil level. Also suitable as a surface disinfectant that complies with EN1276, EN13697 when used as directed.

A close-up photograph of a hand operating a beer tap. The tap is dispensing a golden beer into a clear glass, which is being held by another hand. The beer has a thick, white head of foam. The background is dark and out of focus, showing other parts of the bar equipment. The lighting is dramatic, highlighting the metallic surfaces of the tap and the texture of the beer and foam.

Beerline Hygiene

Beerline and equipment cleaning is essential for quality dispensing. Beer Line Cleaners break down protein and polysaccharide films by oxidation and suspend yeast in solution.

Bar & Cellar

Beerline Cleaner

For cleaning beerlines, pumps and dispensing equipment.

Purple Beerline Cleaner

For cleaning beer lines, pumps and dispensing equipment. Contains a colour indicator for ease of use.

Machine Glasswash Detergent

Designed for dedicated glasswash machines. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit and used in conjunction with Universal Rinse Aid.

Universal Rinse Aid

Universal rinse additive for glass and dishwashers that reduces drying time, leaving a spot free finish. It is designed to be automatically dispensed using the Dish & Glass Washer Dosing Unit.

Glass Renovator

Designed to regenerate the "sparkle" to glasses which have been subjected to repeated wash cycles.

Kitchen Hygiene

Multi Purpose Cleaner

Concentrated
Multi Purpose detergent for general cleaning of hard surfaces and equipment. Dilute at 1 shot per 750ml refillable trigger bottle.

Sanitiser

Concentrated
Sanitiser for the disinfection of food contact surfaces, utensils and equipment. Complies with EN1276, EN13697 and EN1650 when used as directed. Dilute at 1 shot per 750ml refillable trigger bottle.

Heavy Duty Cleaner

Concentrated
Heavy Duty Cleaner for cleaning and degreasing heavily soiled areas and floors. Dilute at 1 shot per 750ml refillable trigger bottle, and 3 shots per 10litre bucket solution, depending on soils.

Floor Cleaner & Degreaser

Concentrated
Floor Cleaner and Degreaser contains "Anti-Re-deposition" technology and is effective for all types of heavy soiling on floors.

Bio Floor Cleaner

Concentrated
Bio Floor Cleaner is a biological floor cleaner used to digest grease and dirt. It has a non-rinse formulation encapsulating non slip technology.

Heavy Duty Cleaner RTU

Ready to use Heavy Duty Cleaner with degreasing properties designed to cut through grease and carbonised build up.

Oven Mousse

Heavy duty oven cleaner. The 1 litre trigger spray applies the ready to use cleaner as a light foam (mousse). Its long contact time allows good grease and carbon removal.

Oven Cleaner

Heavy duty Oven Cleaner for effective removal of heavy protein, fat and carbonised deposits. Use Powerspray Wand (OPT8) to safely apply.

Hot Griddle Cleaner

Fast acting formula that quickly removes grease and grime from grills, griddles, oven tops and ceramic hobs. Apply directly to hot surfaces up to 175°C.

Kitchen Hygiene

Self-Cleaning Oven Detergent

Self-Cleaning Oven Detergent is used with Ovens which have an automatic "self-cleaning" system. use in conjunction with Acidic Rinse Aid.

Decarboniser PTC

Heavy duty degreasing powder used for the cleaning and degreasing of heavily soiled equipment such as deep fat fryers. **Concentrated** to be diluted according to instructions in line with volume of soak tank and soiling.

Degreasing Powder

Powdered detergent that is effective on a wide range of soil types including equipment, floors and hard surfaces. Dilute according to instructions.

Scale Away

Concentrated Scale remover - Acidic product suitable for the removal of scale from dishwashers, urns and equipment.

Appliance Descaler

Concentrated "Food Safe" Appliance Descaler - designed to remove scale build up commonly found in all types of kettles, taps and shower heads. Built in dosage cap ensures safe and cost effective use.

Destaining Powder

A fast acting powder that safely and effectively removes tannin stains on urns, teapots, cutlery and cups.

Bio Drain Cleaner Liquid

A special blend of naturally occurring micro-organisms, enzymes and surfactants for keeping drains free flowing and odour free. Digests fats and oils. For use through an automatic Drain Dosing Unit.

Soluzyme Bio Drain Powder

Ready to use manually dispensed Bio Drain Cleaning Powder. Effective at breaking down organic material to clear drains and prevent pipe blockages, packaged in a dissolving 250grm pouch bag.

QFD60

A ready to use 'QAC' free fast acting disinfectant to support both interim and end of day surface disinfection. QFD 60 meets EN13697 surface test & EN1276 suspension test, and destroys 99.9% of reference micro-organisms in 30 seconds.

Speciality

Chlorine Release Tablets - Holtabs

A concentrated chlorine release tablet, effervescent and fast dissolving creating a powerful disinfectant solution. Effective against a wide spectrum of micro-organisms, including vegetative and sporing bacteria, moulds, mould spores and yeasts.

They are a stable form of available chlorine unlike sodium hypochlorite.

One tablet dissolved in 5 litres (approx. 1 gallon) of water gives a solution of 200 ppm available chlorine.

Thick Bleach

Thick Bleach is a stabilised solution of sodium hypochlorite containing 5% available chlorine. Thick Bleach is a very powerful disinfectant. It is not suitable for use on aluminium, zinc, tin or their alloys.

Bleach

Bleach is a stabilised solution of sodium hypochlorite containing 5% available chlorine. Bleach is used to provide disinfectant solutions by dilution with water. A 1% solution gives approximately 500 ppm available chlorine.

Label Adhesive & Mark Remover

A ready to use solvent for the removal of non-water soluble adhesives typically found on labels and packaging.

Stainless Steel Polish

A ready to use product for the cleaning of non food contact stainless steel surfaces. Leaving a shiny and streak free appearance.

Klor Release Powder

A ready to use chlorine release powder suitable for cleaning and destaining of crockery. Also effective at removing malodours from drains and sinks.

Cream Cleaner

A ready to use cream cleaner formulated to clean a variety of hard surfaces quickly and easily. Suitable to tackle and clean even the toughest dirt and grime.

Probe Wipes

Impregnated wet wipes for disinfection of temperature probes.

Spray Wipe & Bleach

A ready to use hard surface cleaner with added chlorine, formulated to remove tough stains such as mould, tea and coffee from most hard surfaces.

Active Wipes

Active Wipe Range

Active Wipes are a ready to use absorbent non-linting cloth impregnated with an antibacterial solution. Wipes are supplied in a bucket with an easy to use centre pull dispenser. The impregnating liquid is based on Holchem's Active technology and it is alcohol and QAC free. They are suitable for light cleaning and disinfection tasks, or for cleaning of sensitive areas where moisture must be minimised.

The impregnating liquid (Active) has been independently tested by:

Campden BRI - assessed against and passes EN1276 and EN1650 (quantitative suspension test).

Lab-Test Laboratorium SC - assessed against and passes EN13697 (quantitative surface test).

Campden BRI - assessed against the Triangle Contact Taint test based on BS ISO 4120:2004 and is regarded as non-tainting.

Active Performance Wipes

Wipe Material	21 gsm; high strength Polypropylene
Wipe Size	200 mm x 200 mm
No of wipes	1,500

Active Professional Wipes

Wipe Material	25 gsm; high strength Polypropylene
Wipe Size	200 mm x 200 mm
No of wipes	1,250

Protect Iso Propyl Wipes

Protect Iso Propyl Wipes are ready to use absorbent non-linting cloths impregnated with a 70% Propan-2-ol solution. 1,000 wipes are supplied in a bucket. The buckets have an easy to use centre pull dispenser. The wipes provide an antibacterial solution that rapidly dries to leave a residue free surface. They are suitable for light cleaning and disinfection tasks, or cleaning of sensitive areas where moisture must be minimised.

Protect Iso Propyl Wipes pass EN1276 and EN1650 (quantitative suspension test).

Wipe Material	21 gsm; polyviscose
Wipe Size	195 mm x 195 mm
No of wipes per bucket	1,500

Housekeeping

Toilet Cleaner Concentrate

Concentrated
Toilet Cleaner is used for daily cleaning. Fast, effective and pleasantly perfumed, the product should be diluted at 3 shots per 1000ml refillable bottle.

Washroom Cleaner & Disinfection Concentrate

Concentrated
Washroom Cleaner and Disinfectant suitable for all washroom surfaces. Complies with EN1276, EN13697 & EN1650 when used as directed. Dilute at 1 shot per 750ml refillable trigger bottle.

Glass Cleaner Concentrate

Concentrated
Glass & Hard Surface Cleaner is suitable for glass, mirror and damp dusting leaving a streak free finish. Dilute at 1 shot per 750ml trigger bottle.

Odour Neutraliser With Fragrance Concentrate

Concentrated
Odour Neutraliser with Fragrance is used for removing malodours and leaving a fresh pleasant fragrance. Dilute 1-2 shots per 750ml Trigger bottle.

Bio Washroom Cleaner

Concentrated
Bio Washroom Cleaner contains a detergent and a broad spectrum of non pathogenic micro-organisms. The surfactants provide an immediate cleaning effect, whilst the micro organisms break down more substantive stains resulting from urine, vomit, blood and other body fluids. Suitable on all washroom surfaces.

Washroom Cleaner Concentrate HW

Concentrated
Washroom Cleaner HW, designed for use in Hard Water Areas, suitable on all washroom surfaces. Dilute at 1 shot per 750ml refillable trigger bottle.

Urinal Blocks

Urinal Blocks with a long lasting fragrance for urinals and cisterns that tackles unpleasant odours and keep drains running free.

Mould & Mildew Remover

Ready to use Mould and Mildew Remover is effective at removing a wide spectrum of micro-organisms including vegetative and sporing bacteria, moulds, mould spores and yeast.

Stain Remover

A ready to use stain remover that is specifically designed for removing stains from carpets and soft furnishings.

RECEPTION, PUBLIC AND BEDROOM AREAS ARE KEY CUSTOMER INTERFACES AND A HIGH LEVEL OF CLEANLINESS IS PARAMOUNT.

Toilet cleaning

Toilets and urinals may have scale deposits which hold onto stains. Correct cleaning methods and toilet cleaning products will help to keep toilets clean and presentable.

Bathroom cleaning

General cleaning of sinks, walls and floors in bathroom areas should be conducted with the appropriate washroom cleaner to help create the high standards expected. When cleaning glass and hard surfaces, it is important that they are left spot and streak free.

Air freshening

It is essential that a room looks clean and smells clean. It is therefore crucial to use the correct air control solutions for your premises.

Toilet Cleaner & Descaler

A ready to use fast acting cleaner and descaler that is perfumed and viscous to give a long contact time and a more effective clean.

Washroom Cleaner RTU

A ready to use perfumed detergent that cleans washroom surfaces quickly and easily. Passes EN1276 @ 20°C. Effective against MRSA.

All Purpose Cleaner

A ready to use all purpose cleaner suitable for cleaning a wide range of surfaces.

Glass Cleaner

A ready to use product that is suitable for cleaning a variety of glass and mirrored surfaces, leaving a streak free finish.

Odour Neutraliser With Fragrance RTU

Ready to use odour neutraliser with fragrance that will freshen the atmosphere and quickly disperse unpleasant malodours.

Furniture Polish

A ready to use fragranced polish that has anti-static properties and is suitable for a wide variety of surfaces.

Floorcare

Different floor types demand different cleaning products, cleaning equipment and methods to suit. The procedure for cleaning a rough, greasy kitchen floor will be dramatically different from a marble foyer floor. Holchem can help assist with training and product selection advice to help you choose the correct package for your business.

Natural
Stone
Marble
Wood

These types of floors need particular care and attention often requiring the use of a floor polish to help protect the surface.

Floorcare

Polish Stripper

Fast acting concentrated floor stripper that removes old polish prior to retreatment with a fresh coating of polish.

Floor Polish

Hard wearing and easy to apply polish which provides a scuff and slip resistant finish.

Floor Cleaner & Maintainer

A dual action neutral cleaner and floor polish that protects and leaves a slip resistant finish. Apply via a mop solution and allow to air-dry. For a gloss like finish buff with a high speed floor machine.

Floor Cleaner

For use in a combination scrubber dryer machine and for mopping of lightly soiled floors.

Pine Gel

Cleans and deodorises all hard floor surfaces leaving a fresh pine odour.

Lemon Gel

Cleans and deodorises all hard floor surfaces leaving a fresh lemon odour.

Carpet Cleaner

Carpet cleaning detergent suitable for use with extraction cleaning machines.

Chewing Gum Remover

For the removal of chewing gum, grease & glue residues. Safe to use on a variety of surfaces including metal, rubber, vinyl, plastic, stone, concrete, carpets and entrance matting. Product has a fresh citrus fragrance.

Laundry

On-premise laundries in hotels, restaurants, nursing homes or other businesses offer the operator the opportunity to control and manage the quality of finish being achieved for items placed on tables, in bathrooms, bedrooms, etc.

Small Laundries

For the smaller premises the normal method is to hand feed a laundry powder and fabric conditioner directly into the machine.

Medium Laundries

For a small to medium busy laundry we offer a "one shot" built laundry detergent which is easy to use and automatically dispensed.

Large Laundries

For the busy large, multi machine laundries Holchem have a multi product system utilising where required a detergent, alkaline boost, emulsifier and destain.

Laundry

Laundry Powder Non- Bio

Powerful detergent for washing at low temperatures in commercial and domestic washing machines.

Laundry Powder Bio

Laundry Powder Bio is a blend of detergents, alkalis, anti-redeposition agents and enzymes. It is a powerful detergent designed for washing at low to medium temperatures in commercial and domestic washing machines.

Fabric Softener

A pleasant fragranced fabric conditioner for softening all washable fabrics and reducing static to make ironing easier.

One Shot Laundry Liquid Detergent

Effective at removing blood and protein with excellent soil removal and suspension. It is ideal for use in nursing homes and hotel environments.

Laundry Liquid Detergent

A heavy duty laundry detergent effective for removing blood and protein with excellent soil removal and suspension. Designed to be used via an automatic dosing system.

Laundry Boost Liquid

A fabric washing additive specially designed to improve the overall cleaning performance on heavy soils. It is designed for use through an automatic dosing system.

Premium Fabric Conditioner

A pleasant fragranced concentrated fabric conditioner for softening all washable fabrics and reducing static to make ironing easier.

Laundry Liquid Destain

A non chlorine bleach additive that improves the overall cleaning performance on stains. For use through an automatic dosing system together with Laundry Liquid.

Low Temp Laundry Destain

Laundry Destain is an odourless additive for fabric washing that improves cleaning performance. It is effective against a wide range of stains such as tea, coffee, wine, natural plant oils, etc.

Hand Care

Luxor Hand Soap Dispenser

Foam dispenser for cartridge product H4 Foam Soap (Luxor). The dispenser delivers 0.7 ml per push.

Order Code: OPTE21/Luxor

Foamsan Hand Sanitiser Dispenser

Foam dispenser for cartridge product H6 Hand Sanitiser (Foamsan). The dispenser delivers 0.7 ml per push.

Order Code: OPTE21/Foamsan

Luxury Hand Soap Dispenser

Foam dispenser for cartridge product H3 Hand Soap (Luxury). The dispenser delivers 0.7 ml per push.

Order Code: OPTE21/Luxury

Foam Soap - Luxor

A high quality, but gentle antimicrobial foam soap coupled with skin conditioning ingredients to ensure that no dry or adverse skin conditions occur. The antimicrobial efficacy of Luxor has been tested and passes EN12054 and EN1499.

Hand Sanitiser-Foamsan

An antimicrobial, foaming, non drying post washhand sanitiser gel. The antimicrobial efficacy of Foamsan has been tested and passes EN12054 and EN1500.

Foam Soap - Luxury

A pleasantly fragranced luxury hand soap. Not suitable for use in food production areas.

Luxcell Dispenser

Liquid dispenser for cartridge product H5 Hand Soap (Luxcell). The dispenser delivers 1.7 ml per push.

Order Code: OPTE20/Luxcell

Hand Soap Luxcell

A high quality, gentle soap coupled with skin conditioning ingredients to ensure that no drying or adverse skin conditions occur.

Luxsan Dispenser

Liquid dispenser for cartridge product H2 Hand Sanitiser (Luxsan). The dispenser delivers 1.7 ml per push.

Order Code: OPTE20/Luxsan

Hand Sanitiser Luxsan

An antimicrobial, non drying post wash hand sanitiser gel. The antimicrobial efficacy of Luxsan has been tested and passes EN12054 and EN1500.

Hand Care

Hand Soap Dispenser

Durable, hygienic refillable liquid dispenser for Hand Soap. The dispenser holds 0.9 litre and delivers 2 ml per push.

Order Code: OPTE115

Handsan Dispenser

Durable, hygienic refillable foam dispenser for Handsan. The dispenser holds 0.9 litre and delivers 0.6 ml per push.

Order Code: OPTE117

Hand Care Dispenser

Durable, hygienic refillable liquid dispenser for Hand Care. The dispenser holds 0.9 litre and delivers 1 ml per push.

Order Code: OPTE119

Hand Soap

Hand soap is a liquid hand soap combining the cleansing power of synthetic soaps with an emollient that reduces the drying of the skin. It is unperfumed to avoid the tainting of food and is suitable for use in food processing or preparation areas.

Handsan

A non-alcohol based antimicrobial, non drying, hand sanitiser liquid. The antimicrobial efficacy of Handsan has been tested and passes EN12054 and EN1500.

Hand Care Remoisturiser

Hand Care is a high quality moisturising lotion for hand use. It helps to re-moisturise the hands. This is of benefit cold weather can cause drying and cracking of the skin.

Dermolsan Dispenser

Durable, hygienic refillable liquid dispenser for Dermolsan. The dispenser holds 0.9 litre and delivers 2 ml per push.

Order Code: OPTE120

Dermolsan

A QAC free, non drying, hand sanitiser liquid. The antimicrobial efficacy of Dermolsan has been tested and passes EN12054 and EN1500.

Hand Mousse Dispenser

Durable, hygienic refillable foam dispenser for Hand Mousse. The dispenser holds 0.9 litre and delivers 0.6 ml per push.

Order Code: OPTE118

Hand Mousse Hand Soap

M8 Hand Mousse is a foaming hand soap, combining cleansing power with an emollient system and an antimicrobial agent. It is un-perfumed and maintains the skins natural moisture levels and elasticity. The antimicrobial efficacy of Hand Mousse has been tested and passes EN12054 and EN1499.

Environmental Impact

We pride ourselves on delivering products and services that deliver quality hygiene solutions for our customers – many of whom have been customers throughout Holchem's 35 year history - whilst also enhancing their reputation for product integrity and sustainability.

Providing high performance cleaning products, equipment and systems we constantly review all of these to make sure they are as safe as possible with the lowest hazard to personnel and equipment, consistently delivering to the highest performance at the lowest cost of clean whilst maintaining the minimum possible impact on the environment.

Holchem delivers this by ensuring that our customers retain a performance level from a product the same or better than already used but with a lower impact on the environment. We lessen the overall effect on the environment further by taking into account detergent, water, energy and labour usage, as well as the time it takes to carry out a cleaning operation.

Our dedicated team of research and development experts are working consistently to evolve our product solutions ensuring they minimise the impact on the environment.

Managing the sustainability of both our products and business as a whole is massively important to Holchem as a business, working to protect and lessen our impact on the environment wherever possible.

Product Stewardship

Environmental protection centres on the product itself, and product stewardship requires all involved in its lifespan to reduce any related environmental effects.

At Holchem, we always look to reduce our impact on the environment and continually work to reduce the impact of our operations and products.

This is achieved by maintaining efficiency, minimising waste and reducing the amount energy consumed in our factories.

Raw Material Sourcing

Wherever possible we locally source raw materials we use in our formulations. Many of these raw materials, such as caustic soda, sodium hypochlorite and quaternary ammonium compounds are sourced within 30 miles of our production facility.

Production

Our purpose-built designed facility at Gateway House, Bury in Lancashire is a modern, low impact facility across 105,000 square feet, fully optimised for the safe handling and processing of hazardous chemicals.

E-Learning Academy

The Holchem E-Learning Academy provides customers with an 'always on' service and helps to cut the amount of car miles necessary for all employees to receive training.

Holchem Holistic Green Range

The Holchem accredited Holistic Green Range products have:-

- Low impact on aquatic life
- Reduced use of hazardous raw material substances
- Low packaging waste
- Efficient cost in use formulations
- Cleaning performance independently assessed against market leading non-Ecolabel products

Washing Up Liquid Concentrate

Concentrated
Ecological Hand Dishwashing Liquid, safe to use on all materials.

One 2 x 5 Ltr pack of concentrate will provide over 1300 in use solutions in a typical 15 Ltr sink.

The product is also available in a pack of 6 x 1 Ltr bottles.

All Purpose Cleaner Concentrate

Concentrated
Ecological All Purpose Cleaner suitable for cleaning all hard surfaces.

One 2 x 5 Ltr pack of concentrate will provide 666 in use trigger bottle refills.

Degreaser Concentrate

Concentrated
Ecological Degreaser suitable for cleaning all hard surfaces and floors. Removes fats, oils, grease and difficult soiling.

One 2 x 5 Ltr pack of concentrate will provide 666 in use trigger bottle refills.

Washroom Cleaner Concentrate

Concentrated
Ecological Washroom Cleaner suitable for use on all washroom surfaces, including floors, urinals, toilet bowls and showers.

One 2 x 5 Ltr pack of concentrate will provide 666 in use trigger bottle refills.

Toilet Cleaner RTU

Concentrated
Ecological daily use Toilet Cleaner. Ready to use product suitable for daily cleaning and freshening toilets and urinals.

Dispenser Pack

Dispenser Pack containing 2 x 750 ml trigger bottles and 1 x 15 ml pelican pump. This pack is available for All Purpose Cleaner Concentrate, Degreaser Concentrate and Washroom Cleaner Concentrate.

Refillable Bottles

The Optimum Range of concentrate products are supported with their own dedicated ergonomically designed refillable bottles, with the appropriate head or trigger, labelled for the designated product.

Product	Bottle	Code
